

Reparestim HA[®]

DAILY CARE

REPAIRS, REFILLS,
STIMULATES
AND PLUMPS THE SKIN

Indications

Reparestim HA[®] Daily Care is a dermocosmetic gel the result of intense research and development by the Aesthetic Dermal, SL, laboratory to offer a high quality product rich in active ingredients.

It be used daily as part of the standard care for skin subjected to excess solar radiation, skin dehydrated through age or extreme environmental factors; as a complement to aggressive cosmetic-aesthetic cares.

Properties

- Repairs photo-aged skin, mature wrinkled skin and skin damage after aggressive cosmetic-aesthetic procedures.
- Stimulates the regeneration of healthy renewed skin.
- Protects skin against aggressive factors like environmental contamination and cigarette smoke.
- Plumps out and deeply hydrates mature skin.

Instructions for use

Apply once a day to clean dry skin lightly massaging to facilitate penetration.

Thanks to its gel form it is non-oily and is rapidly absorbed, so it can be used as a makeup base or on dry skins it can be used with another moisturising cream.
