

# XL Hair<sup>®</sup>

## DAILY CARE

### HAIR ENERGY

#### Indications

Topical solution with highly efficient synergic natural extracts which combat hair fall.

XL Hair<sup>®</sup> Daily Care is indicated for both men and women as preventive or maintenance care of excessive hair fall.

#### Properties

Hair fall may be due to many different factors. Some of them may influence a capillary cycle phase altering its growth. During a normal capillary cycle, hair grows, rests and falls. It is a non-simultaneous process for all hairs, each being in a different phase.

XL Hair<sup>®</sup> Daily Care is a capillary regenerator which revitalises and strengthens capillary fibre via a greater contribution of essential nutrients for capillary growth and a stimulating action of hair growth factors.

#### Instructions for use

Prior to using product turn dispensing tube to one side into a horizontal position. Spray XL Hair<sup>®</sup> Daily Care directly onto the scalp and lightly massage ensuring the product is well distributed over the application areas. Apply twice a day, 3 times a week, during 8 weeks minimum.

To strength growth in periods with a greater tendency for hair fall (spring and autumn) we recommend applying the product during 4 weeks.

XL Hair<sup>®</sup> Daily Care can be used as a complement to specific cosmetic-aesthetic capillary care, following the professional's indications.
